

Maintenance and Light Repair Workbook Chapter 68

Name: _____ Class _____ Date: _____
Instructor: _____ Textbook Pages 1008-1027

Answer the questions and identify the page number that the answer was found in the textbook

1. A _____ acts like two fans pointing toward each other. Page ____

2. The _____ help direct the flow of fluid and improve the efficiency of the torque converter by reducing turbulence. Page ____

3. The torque converter is typically bolted to a thin metal disc called a _____. Page ____

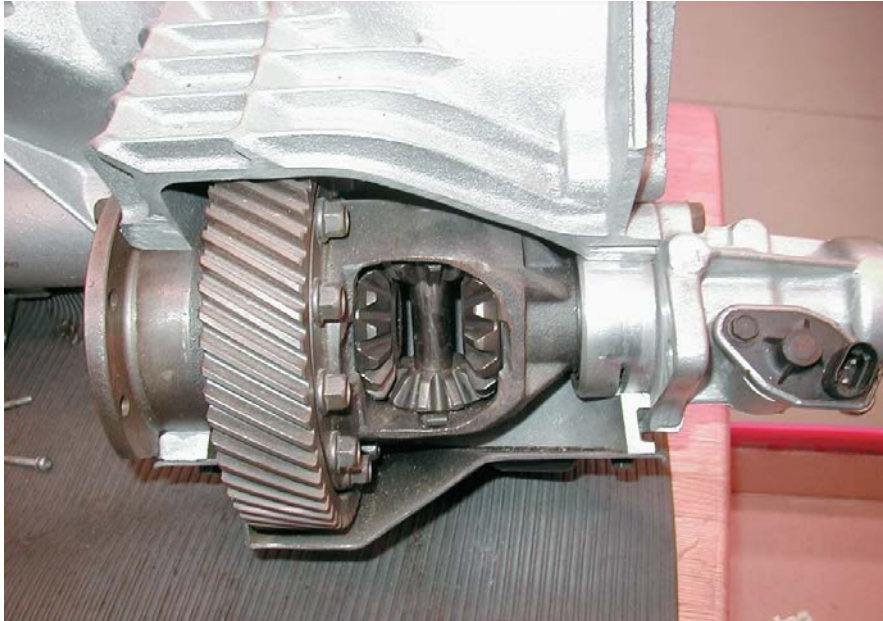

4. The flat sections that are cut into the hub of the torque converter are used to drive the _____. Page ____

5. _____ is the engine speed when the engine drives the impeller at the maximum speed possible without moving the turbine. Page ____

6. The first hydraulic lockup _____ were controlled entirely by hydraulic pressure and spool valves in the transmission valve body. Page ____

7. Automatic transaxles include a _____ assembly as well as the planetary gear sets of an automatic transmission.

Page ____

8. A belt and pulley _____ uses variable width pulleys and a special chain to provide an infinite number of speed ratios.

Page ____

9. A dual clutch automatic uses the best features of an automatic transmission without the power loss of a _____

Page ____

10. The purpose and function of a continuously variable transmission is to allow the _____ to operate in a speed range where it is most efficient.

Page ____
