

Turbocharger/Supercharger Component ID

Meets NATEF Task: (A8-A-2) Research applicable vehicle and service information. (P-1)

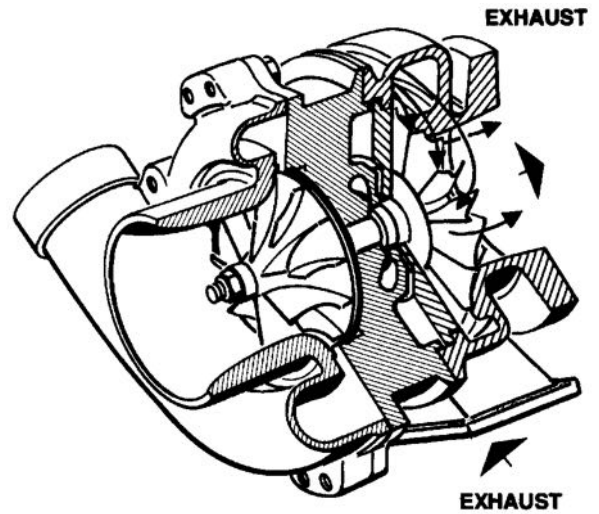

Name _____ Date _____ Time on Task _____

Make/Model/Year _____ VIN _____ Evaluation: 4 3 2 1

_____ 1. Check service information for the following information and specifications relating to the turbocharging or supercharging system. Which system?

_____ Turbocharger (exhaust driven)

_____ Supercharger (engine driven)

_____ 2. List the components of the turbocharger/supercharger system and describe the purpose and function of each.

Component

Purpose/Function

_____	_____
_____	_____
_____	_____
_____	_____
_____	_____

_____ 3. What device(s) limits the boost levels? _____

_____ 4. What maintenance items are specified for the turbocharger/supercharger system?

_____ 5. What is the recommended octane rating of the gasoline specified for use in the vehicle?
