

# Test Light Usage

**Meets NATEF Task:** (A6-A-8) Check electrical circuits with a test light; determine the necessary action. (P-2)

Name \_\_\_\_\_ Date \_\_\_\_\_ Time on Task \_\_\_\_\_

Make/Model/Year \_\_\_\_\_ VIN \_\_\_\_\_ Evaluation: 4 3 2 1

\_\_\_\_\_ 1. Check service information regarding which wire color(s) is the brake light and which is the tail light. Using a test light, check for voltage to the brake lights and tail lights at the rear of the vehicle.

\_\_\_\_\_

\_\_\_\_\_

a. Brake light: \_\_\_ **OK** \_\_\_ **NOT OK** (describe fault) \_\_\_\_\_

\_\_\_\_\_

b. Tail light: \_\_\_ **OK** \_\_\_ **NOT OK** (describe fault) \_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_ 2. Using a test light, check all of the fuses in the vehicle.

**NOTE:** The ignition switch and/or lights need to be on to supply power to some fuses.

List all good fuses: \_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_ 3. Based on the above activities, what is the necessary action? \_\_\_\_\_
