

Inspect and Test the Switches

Meets NATEF Task: (A6-A-14) Inspect and test switches, connectors, relays, and wires; determine the necessary action. (P-1)

Name _____ Date _____ Time on Task _____

Make/Model/Year _____ VIN _____ Evaluation: 4 3 2 1

_____ 1. Check service information for the specified procedures for inspecting and testing switches.

_____ 2. Check everything that does and does not work by operating all switches in the vehicle. List any and all circuits that do not function correctly when the switch is moved.

_____ 3. Are any switch inputs to the body computer or module? If so, list those that can be monitored using a scan tool.

Switch Inputs to Computer/Module

Operation Viewable on Scan Tool?

_____ 4. Test a relay.

_____ 5. Based on the inspection and testing procedures, what is the necessary action?
