

# Automatic/Dual Climate System ID

Meets NATEF Task: (A7-A-3) Research vehicle and service information. (P-1)

---

Name \_\_\_\_\_ Date \_\_\_\_\_ Time on Task \_\_\_\_\_

Make/Model/Year \_\_\_\_\_ VIN \_\_\_\_\_ Evaluation: 4 3 2 1

\_\_\_\_\_ 1. Check service information and identify the type of automatic or dual climate system and check all that apply:

\_\_\_\_\_ automatic system

\_\_\_\_\_ dual climate system

\_\_\_\_\_ semi-automatic system

\_\_\_\_\_ 2. Check service information and determine what sensors are being used and where they are located.

a. Ambient air temperature sensor; location \_\_\_\_\_

b. Evaporator outlet temperature sensor; location \_\_\_\_\_

c. Passenger component temperature sensor; location \_\_\_\_\_

d. Sunload sensor; location \_\_\_\_\_

e. Other (describe) \_\_\_\_\_; location \_\_\_\_\_

\_\_\_\_\_ 3. Describe the location of the other major components of the system.

Compressor(s); location \_\_\_\_\_

Evaporator(s); location \_\_\_\_\_

Blower motor(s); location \_\_\_\_\_
