

# Windshield Wiper Blade Service

Meets NATEF Task: Not specified by NATEF

---

Name \_\_\_\_\_ Date \_\_\_\_\_ Time on Task \_\_\_\_\_

Make/Model/Year \_\_\_\_\_ VIN \_\_\_\_\_ Evaluation: 4 3 2 1

- \_\_\_\_\_ 1. Turn the ignition switch on (engine off).
- \_\_\_\_\_ 2. Turn the wiper switch on and operate the wipers. As soon as the wiper arms are in an accessible location on the windshield, turn off the ignition switch.
- \_\_\_\_\_ 3. Carefully inspect the condition of the wiper blades.

OK \_\_\_\_\_ NOT OK \_\_\_\_\_

- \_\_\_\_\_ 4. If they are OK (serviceable), use a clean shop cloth and windshield washer fluid to wipe the blades to remove road grime.
- \_\_\_\_\_ 5. If the wiper blades need replacing, measure the length.

Left (driver) side = \_\_\_\_\_ Right (passenger) side = \_\_\_\_\_

- \_\_\_\_\_ 6. Describe how the replacement wiper blade inserts are removed and replaced.
