

## High-Voltage Circuits Identification Meets NATEF Task: (A6-B-7) Identify high-voltage circuits of electric or hybrid vehicles.

(P-3)

Name	Date	Time on Task
Make/Model/Year	VIN	Evaluation: 4 3 2 1
1. Look for orange cond	duit and connections. This co	olor indicates high voltage that could
be fatal if touched. I	Describe the location of all or	range-colored wires:
a		MILO
b		
C		
d		NAIS TO THE STATE OF THE STATE
e		
	. 40	
<b>2.</b> Most vehicle manufa	cturers recommend the use o	of rubber linesman gloves if working
around high-voltage	circuits. Research service in	formation and determine when these
gloves are needed to	be used.	
-		
<b>3.</b> What are the safety p	precautions listed in service in	nformation?
