

# Gauges and Sending Units

**Meets NATEF Task:** (A6-F-1) Inspect and test gauges and gauge sending units; determine necessary action (P-2)

Name \_\_\_\_\_ Date \_\_\_\_\_ Time on Task \_\_\_\_\_

Make/Model/Year \_\_\_\_\_ VIN \_\_\_\_\_ Evaluation: 4 3 2 1

\_\_\_\_\_ 1. Check service information for the location and test procedures for the gauge sending units and gauges.

a. Fuel gauge sending unit; list the location and resistance specification.

\_\_\_\_\_

b. Oil pressure sending unit; list the location and resistance specification.

\_\_\_\_\_

c. Coolant temperature sending unit; list the location and resistance specification.

\_\_\_\_\_

d. Other gauge sending units (describe) \_\_\_\_\_

\_\_\_\_\_ 2. What is the test procedure for diagnosing?

Fuel level gauge \_\_\_\_\_

Oil Pressure gauge \_\_\_\_\_

Coolant temperature gauge \_\_\_\_\_

Other (describe) \_\_\_\_\_

\_\_\_\_\_ 3. Based on the inspection and testing results, what is the necessary action?

\_\_\_\_\_

\_\_\_\_\_
