

Hybrid Battery Identification

Meets NATEF Task: (A8-A-2) Research vehicle information. (P-1)

Name _____ Date _____ Time on Task _____

Make/Model/Year _____ VIN _____ Evaluation: 4 3 2 1

_____ 1. Check service information and determine the types and voltages of the high-voltage (HV) batteries used in the hybrid electric vehicle (HEV).

Type (D-cell or prismatic): _____

Voltage of HV battery: _____

_____ 2. Check service information and describe how the temperature of the batteries is controlled.

_____ 3. Are the batteries heated when cold? ___ Yes ___ No

If yes, how? _____

_____ 4. Describe the airflow around the batteries and describe where the outlet is located.

___ Outlet is in the trunk area

___ Outlet is under the vehicle
