

# Hybrid Vehicle ICE Service Precautions

Meets NATEF Task: (A1-A-9)

Identify hybrid internal combustion engine service precautions. (P-3)

Name \_\_\_\_\_ Date \_\_\_\_\_ Time on Task \_\_\_\_\_

Make/Model/Year \_\_\_\_\_ VIN \_\_\_\_\_ Evaluation: 4 3 2 1

\_\_\_\_\_ 1. Using service information, determine the internal combustion engine service precautions: \_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_ 2. Place a check mark (✓) next to each item that was included or found in the service information?

- \_\_\_\_\_ Be sure the ignition is off.
- \_\_\_\_\_ Be certain that the “ready” light is out.
- \_\_\_\_\_ Use caution around hot surfaces.
- \_\_\_\_\_ Disable the high-voltage (HV) electrical system.
- \_\_\_\_\_ Disconnect a fuse or relay.
- \_\_\_\_\_ Remove a service plug.
- \_\_\_\_\_ Disconnect the 12-volt auxiliary battery.
- \_\_\_\_\_ Other (describe) \_\_\_\_\_

\_\_\_\_\_ 3. Does the vehicle manufacturer specify that high-voltage linesman’s gloves be used?

\_\_\_ Yes \_\_\_ No If yes, when?
