

Traction Control/Stability Control Components

Meets NATEF Task: (A5-G-1) Identify traction control/vehicle stability control system components. (P-3)

Name _____ Date _____ Time on Task _____

Make/Model/Year _____ VIN _____ Evaluation: 4 3 2 1

_____ 1. Check service information and reference materials and describe the components used as part of the traction control/vehicle stability control system. Describe the components involved. _____

_____ 2. Check all that are used for traction control/vehicle stability control.

_____ Traction control/vehicle stability warning light

_____ ABS wheel speed sensors

_____ Steering wheel (handwheel) position sensor

_____ Yaw sensor

_____ Electrohydraulic control unit

_____ Electronic brake controller (computer)

_____ Other (describe) _____
