

MAP Sensor Visual Inspection

Meets NATEF Task: (A8-B-7) P-2 Inspect and test sensors, actuators, and circuits using a graphing multimeter (GMM)/digital storage oscilloscope (DSO); perform necessary action.

Name _____ Date _____ Time on Task _____

Make/Model/Year _____ VIN _____ Evaluation: 4 3 2 1

- _____ 1. Check service information for the location, wire colors, and specified testing procedures for the MAP sensor.

Location: _____

Wire colors and purpose: _____

Recommended testing procedure: _____

- _____ 2. Describe the actual location of the MAP sensor. _____

- _____ 3. Verify the wire colors and the location in the electrical connector.

OK ____ NOT OK ____ Describe fault: _____

- _____ 4. Check the condition of the electrical terminals.

OK ____ NOT OK ____ Describe fault: _____

- _____ 5. Check the physical condition of the sensor for signs of contamination or damage.

OK ____ NOT OK ____ Describe fault: _____

- _____ 6. Based on the inspection, what is the necessary action? _____
