

# Electronic Brake Control System Components

Meets ASE Task: (A5-G-1) P-1 Identify traction control/vehicle stability control system components.

Name \_\_\_\_\_ Date \_\_\_\_\_ Time on Task \_\_\_\_\_

Make/Model/Year \_\_\_\_\_ VIN \_\_\_\_\_ Evaluation: 4 3 2 1

\_\_\_\_\_ 1. Check service information to determine what components are included in the traction control/vehicle stability control system (check all that apply).

- ABS electrohydraulic control unit
- ABS/traction control computer (controller)
- Wheel speed sensors
- Steering wheel position sensor
- Vehicle speed sensor
- Lateral force (“G”) sensor

\_\_\_\_\_ 2. Describe the location of each of the components.
