Online Assignment

Chapter 21
Cooling System Operation and Diagnosis

Question 1

(Online) find two videos on how to inspect a vehicle's cooling system. (Below) list the components that need to be examined to complete a cooling system inspection. List the importance of a visual inspection and describe what a technician needs to be aware of when inspecting a cooling system's hoses, clamps, and belts. In miles, list the frequency a cooling system inspection should be performed. Be prepared for in-class discussion. List references.
