Online Assignment

Chapter 24
Intake and Exhaust Systems

Question 1

(Online) find two videos and/or articles that describe the different types of vehicle air filters. (Below) list three different types of air filters. For each type of air filter, list the materials used to construct the filter. List when each filter should be used and list the advantages and disadvantages as far as performance, quality, and cost. Be prepared for in-class discussion. List references.
