

Name _____

MULTIPLE CHOICE. Choose the one alternative that best completes the statement or answers the question.

- 1) The parking brake cable can be adjusted in most cases at the _____. 1) _____
- A) Operating lever
 - B) Equalizer
 - C) Star wheel adjusters
 - D) Link

- 2) Identify the equalizer in this illustration. 2) _____

- A) A
- B) B
- C) C
- D) D

- 3) On most drum brake systems, the parking brake lever and strut transfer the pulling force of the parking brake cable against the _____. 3) _____

- A) Primary shoe
- B) Secondary shoe

- 4) Technician A says that if the parking brake cable is adjusted too tight, the rear brakes may drag and overheat. Technician B says that the parking brake is adjusted properly if the cable is tight when in the released position. Which technician is correct? 4) _____

- A) Technician A only
- B) Technician B only
- C) Both technicians
- D) Neither technician

- 5) Technician A says a parking brake equalizer may consist of a cable guide attached to a threaded rod. Technician B says a brake equalizer balances the force from the parking brake control. Which technician is correct? 5) _____
- A) Technician A only
 - B) Technician B only
 - C) Both technicians
 - D) Neither technician
- 6) When replacing the rear brake pads on a vehicle with an electric parking brake, what additional step is required before removing the caliper? 6) _____
- A) No special steps are required
 - B) A scan tool is used to insert a EPB trouble code
 - C) The pads must be changed one side at a time
 - D) The EPB automatic apply system must be turned off
- 7) Rear-disc auxiliary drum parking brakes _____. 7) _____
- A) Use a dual-servo friction assembly
 - B) May be adjusted through an opening in the drum
 - C) Both A and B
 - D) Neither A nor B
- 8) In a typical integral rear disc brake caliper, the parking brake cable moves the _____. 8) _____
- A) Caliper
 - B) Actuator screw
 - C) Auxiliary piston
 - D) Rotor
- 9) Technician A says that the parking brake hand lever can turn on the red brake warning lamp. Technician B says that a foot-operated parking brake can turn on the red brake warning lamp. Which technician is correct? 9) _____
- A) Technician A only
 - B) Technician B only
 - C) Both technicians
 - D) Neither technician
- 10) The parking brake warning light is independent of all other systems. 10) _____
- A) True
 - B) False
