

Name \_\_\_\_\_

**MATCHING. Choose the item in column 2 that best matches each item in column 1.**

- |  |                        |          |
|--|------------------------|----------|
| 1) Raises refrigerant temperature          | A) Discharge stroke    | 1) _____ |
| 2) Produces low pressure                   | B) Engine oil          | 2) _____ |
| 3) Uses a variable displacement compressor | C) Snap ring clearance | 3) _____ |
| 4) Produces high pressure                  | D) Damper drive        | 4) _____ |
| 5) Turns compressor on and off             | E) Compressor          | 5) _____ |
| 6) Lubricates the compressor               | F) Clutch              | 6) _____ |
| 7) Reduces compressor noises               | G) Refrigerant oil     | 7) _____ |
| 8) Critical clutch adjustment              | H) Muffler             | 8) _____ |
|  | I) Suction stroke      |          |
|  | J) Air gap             |          |
