

Name \_\_\_\_\_

**MULTIPLE CHOICE. Choose the one alternative that best completes the statement or answers the question.**

- 1) How is the panel of a sunroof opened and closed? 1) \_\_\_\_\_
  - A) With a reversible PM motor
  - B) By way of vacuum actuators
  - C) With a handle and cables
  - D) None of these
- 2) Most horns are grounded through a fusible link. 2) \_\_\_\_\_
  - A) True
  - B) False
- 3) The owner of a vehicle equipped with cruise control complains that the cruise control often stops working when driving over rough or bumpy pavement. What is the most likely fault? 3) \_\_\_\_\_
  - A) A defective BCM
  - B) A worn throttle plate in the throttle body assembly
  - C) A misadjusted brake or clutch safety switch
  - D) Normal operation designed to discourage the use of cruise control when driving over bumpy roads
- 4) To determine if a windshield wiper problem is electrical or mechanical, the technician should . 4) \_\_\_\_\_
  - A) Disconnect the linkage from the windshield wiper motor and operate the windshield wiper
  - B) Check to see if the fuse is blown
  - C) Check the condition of the wiper blades
  - D) Check the washer fluid for contamination
- 5) Two-speed wiper motors generally use \_\_\_\_\_ to achieve the two speeds. 5) \_\_\_\_\_
  - A) speed control brushes
  - B) cams
  - C) reduction gear transmission
  - D) gear reduction
- 6) Technician A says that a defective ground connection at the master control switch (driver's side) could cause the failure of all power windows. Technician B says that if *one* control wire is disconnected, all windows will fail to operate. Which technician is correct? 6) \_\_\_\_\_
  - A) Technician A only
  - B) Technician B only
  - C) Both technicians A and B
  - D) Neither technician A nor B
- 7) Most vehicles use \_\_\_\_\_ to control the actual operation of the wipers. 7) \_\_\_\_\_
  - A) variable resistors
  - B) changing the voltage to the brushes
  - C) the BCM
  - D) changing the position of the brushes

- 8) Remote start systems include what restriction that could prevent the engine from being started? 8) \_\_\_\_\_
- A) The remote is inside the vehicle
  - B) The distance away from the vehicle exceeds the range of the transmitter
  - C) The doors are not locked
  - D) Any of these
- 9) The rain sense module (RSM) can turn on the wipers by communicating with \_\_\_\_\_. 9) \_\_\_\_\_
- A) The PCM
  - B) The wiper motor
  - C) The BCM
  - D) The instrument cluster
- 10) A keyless remote control stops working. Technician A says that the battery in the remote could be dead. Technician B says that the key fob may have to be resynchronized. Which technician is correct? 10) \_\_\_\_\_
- A) Technician A only
  - B) Technician B only
  - C) Both technicians A and B
  - D) Neither technician A nor B

## Answer Key

Testname: AEPP8\_23A

- 1) A
