

Name \_\_\_\_\_

**MULTIPLE CHOICE. Choose the one alternative that best completes the statement or answers the question.**

- 1) On Prius models equipped with a Smart key system, how far should the ignition key be kept away from the vehicle during service to prevent accidental starting? 1) \_\_\_\_\_
  - A) 15 feet
  - B) 10 feet
  - C) 100 yards
  - D) 2 feet
  
- 2) Technician A says that the VIN may be used to identify a Toyota hybrid electric vehicle. Technician B says that the VIN is a 16 digit number located in the lower left corner of the windshield. Which technician is correct? 2) \_\_\_\_\_
  - A) Technician A only
  - B) Technician B only
  - C) Both technicians
  - D) Neither technician
  
- 3) Technician A says that all high voltage battery failures require replacement of the battery assembly as a unit. Technician B says that some repairs can be made to the high voltage battery module electrical connectors. Which technician is correct? 3) \_\_\_\_\_
  - A) Technician A only
  - B) Technician B only
  - C) Both technicians
  - D) Neither technician
  
- 4) The Lexus RX 400h hybrid electric vehicle uses which of the following systems? 4) \_\_\_\_\_
  - A) VDIM
  - B) ETC
  - C) EPS
  - D) All of the above
  
- 5) Technician A says that the "brake by wire" system on the Prius uses a pedal stroke simulator so the driver experiences "normal" brake pedal travel. Technician B says that the "brake by wire" system on the second-generation Prius uses a power supply backup system to provide braking if the 12-volt electrical system should fail. Which technician is correct? 5) \_\_\_\_\_
  - A) Technician A only
  - B) Technician B only
  - C) Both technicians
  - D) Neither technician
  
- 6) On a Prius, what does the "B" mean on the shift indicator? 6) \_\_\_\_\_
  - A) Battery
  - B) Braking
  - C) Back up
  - D) Booking

- 7) Technician A says that the Prius has a backup 12-volt starter mounted on the outside of the transaxle housing. Technician B says that it has an auxiliary 12-volt jumper cable terminal under the hood in case it runs out of fuel and the high voltage battery unit is discharged. Which technician is correct? 7) \_\_\_\_\_
- A) Technician A only
  - B) Technician B only
  - C) Both technicians
  - D) Neither technician
- 8) Technician A says that the Toyota Prius has a closed fuel tank system that completely seals the fuel system off using electronic controls and displays a message on the information center when the system has been unsealed and is ready to be filled. Technician B says that this system is available on the Toyota Highlander hybrid and the Lexus RX400h models only. Which technician is correct? 8) \_\_\_\_\_
- A) Technician A only
  - B) Technician B only
  - C) Both technicians
  - D) Neither technician
- 9) Where is the 12-volt battery located in a Toyota Prius? 9) \_\_\_\_\_
- A) Under the back seat
  - B) Under the hood, driver's side
  - C) In the trunk
  - D) Under the hood, passenger's side
- 10) What indication does the Prius instrument cluster show to signal the vehicle is OK to drive? 10) \_\_\_\_\_
- A) Ready
  - B) Ignition
  - C) On
  - D) None of these
