

Name _____

SHORT ANSWER. Write the word or phrase that best completes each statement or answers the question.

1) Bio-diesel blends are identified by what designation?

2) What is ultra low sulfur diesel?

3) What is meant by the cloud point?

Answer Key

Testname: HYBRID4_SHORT7

- 1) Bio-diesel is designated with the capital letter "B" followed by the percentage of bio- diesel added to the petroleum-based diesel fuel. B20 indicates that it contains 20% biodiesel. B5 means that it contains 5% biodiesel.
Page Ref: 85
- 2) Ultra low sulfur diesel has 15 parts per million of sulfur.
Page Ref: 85
- 3) The cloud point is the low-temperature point when the waxes in the diesel fuel tend to form crystals that can clog the fuel filter.
