

Name \_\_\_\_\_

**MATCHING. Choose the item in column 2 that best matches each item in column 1.**

- |                                    |                        |           |
|------------------------------------|------------------------|-----------|
| 1) Common rail system advantage    | A) Decreased emissions | 1) _____  |
| 2) Not re-usable                   | B) Modular             | 2) _____  |
| 3) Drives the high-pressure pump   | C) High cost of parts  | 3) _____  |
| 4) Common rail system disadvantage | D) Transfer tubes      | 4) _____  |
| 5) Injector type                   | E) On the rail         | 5) _____  |
| 6) Provides high voltage           | F) Solenoid            | 6) _____  |
| 7) Stores freeze frame data        | G) Dye                 | 7) _____  |
| 8) Helps find leaks                | H) On the injector     | 8) _____  |
| 9) Not used to find leaks          | I) Camshaft            | 9) _____  |
| 10) Classification code location   | J) DC-DC converter     | 10) _____ |
|                                    | K) PCM                 |           |
|                                    | L) Hand or finger      |           |
|                                    | M) Vacuum              |           |

## Answer Key

Testname: LVDE1\_MATCH13

1) B

Page Ref: 142

2) D
