**SHORT ANSWER. Write the word or phrase that best completes each statement or answers the question.**

1) What does Tier 2 Bin 5 mean?

---

---

---

2) From what position are the terms left and right determined?

---

---

---

3) What are the major pieces of information that are included in the vehicle identification number (VIN)?

---

---

---

4) What information is included on the VECI label under the hood?

---

---

---

## Answer Key

Testname: INTRO\_SHORT13

- 1) The term Tier 2 is a U.S. federal emission standard that replaced the less stringent Tier 1 rating in 2001. Bin 5 indicates the level achieved where the lower the bin number is, the cleaner the exhaust emission.  
Page Ref: 126-127
- 2) The terms left and right are all based as if the person is sitting behind the steering wheel.  
Page Ref: 124
- 3) The VIN indicates a lot of information, including country of manufacturer, model and make, model year, as well as type of safety equipment and the serial number.  
Page Ref: 124
- 4) The Vehicle Emission Control Information (VECI) sticker includes spark plug type and gap, vacuum hose routing, and other emission-related information and standards that the vehicle meets.
