

Name _____

SHORT ANSWER. Write the word or phrase that best completes each statement or answers the question.

1) What can a technician do to help prepare to take the certification tests?

2) What types of questions are asked on the ASE certification tests?

3) When are the written ASE tests given?

4) What are the eight ASE test areas?

Answer Key

Testname: INTRO_SHORT5

1) A technician should take practice questions and attend a test preparation course, if possible.

Page Ref: 43

2) The types of questions asked on the ASE certification tests are mostly experienced-based, instead of knowledge-based questions. While a technician's knowledge is needed to pass the tests, the questions mostly deal with understanding of test results and what action would be needed.

Page Ref: 41

3) The ASE tests are given at selected sites electronically throughout the year at testing centers.

Page Ref: 41

4) The eight ASE test areas include:

A1 Engine Repair

A2 Automatic Transmission/Transaxles

A3 Manual Drive Train and Axles

A4 Suspension and Steering

A5 Brakes

A6 Electrical/Electronic Systems

A7 Heating and Air Conditioning

A8 Engine Performance
