## Automotive Engines 10th

Quiz 3	51A
--------	-----

A) ov	engines, the cam bearings are installed in the block.	1.
	rerhead cam	
B) ro		
C) tw	vo-stroke	
D) pı	ishrod	
2. Technicia	an A says that a vibration damper, also known as a harmonic balancer, is used to	2.
dampen	harmful twisting vibrations of the crankshaft. Technician B says that most engines are	
externall	y balanced. Which technician is correct?	
	chnician A only	
	chnician B only	
	oth technicians A and B	
D) No	either technician A nor B	
3. The thru	st bearing surface is located on one of the main bearings to control thrust loads caused	3.
by		
	gging the engine	
	rque converter or clutch release forces	
	pid deceleration forces	
D) Bo	oth A and C	
4. Technicia	an A says balance shafts are used to counteract vibration created in the engine.	4.
	an B says proper balancing of the engine is important for smooth operation. Which	
Technicia	an B says proper balancing of the engine is important for smooth operation. Which in is correct?	
Technicia technicia		
Technicia technicia A) Te	in is correct?	
Technicia technicia A) Te B) Te	n is correct? chnician A only	
Technicia technicia A) Te B) Te C) Bc	n is correct? chnician A only chnician B only	
Technicia technicia A) Te B) Te C) Bo D) No	n is correct? chnician A only chnician B only oth technicians A and B	5.
Technicia technicia A) Te B) Te C) Bo D) No	n is correct? chnician A only chnician B only oth technicians A and B either technician A nor B	
Technicia technicia A) Te B) Te C) Bc D) No 5. Bearing	in is correct? chnician A only chnician B only oth technicians A and B either technician A nor B occurs when a bearing shell is slightly above the parting surface of the bearing	
Technicia technicia A) Te B) Te C) Bc D) No 5. Bearing cap.	In is correct? chnician A only chnician B only oth technicians A and B either technician A nor B occurs when a bearing shell is slightly above the parting surface of the bearing rerlap	
Technicia technicia A) Te B) Te C) Bc D) No 5. Bearing cap. A) ov B) cr	In is correct? chnician A only chnician B only oth technicians A and B either technician A nor B occurs when a bearing shell is slightly above the parting surface of the bearing rerlap	
Technicia technicia A) Te B) Te C) Bo D) No 5. Bearing cap. A) ov B) cr C) ca	In is correct? chnician A only chnician B only oth technicians A and B either technician A nor B occurs when a bearing shell is slightly above the parting surface of the bearing rerlap ush	
Technicia technicia A) Te B) Te C) Bo D) No 5. Bearing cap. A) ov B) cr C) ca D) in	in is correct? chnician A only chnician B only oth technicians A and B either technician A nor B occurs when a bearing shell is slightly above the parting surface of the bearing rerlap ush p lock	
Technicia technicia A) Te B) Te C) Bc D) No 5. Bearing cap. A) ov B) cr C) ca D) in 6. Cranksh	In is correct? chnician A only chnician B only oth technicians A and B either technician A nor B occurs when a bearing shell is slightly above the parting surface of the bearing rerlap ush p lock terference fit	5.
Technicia (A) Te (B) Te (C) Bo (D) No 5. Bearing (cap. (A) ov (B) cr (C) ca (D) in 6. Cranksh (A) Au	In is correct? chnician A only chnician B only oth technicians A and B either technician A nor B occurs when a bearing shell is slightly above the parting surface of the bearing rerlap ush p lock terference fit afts should be stored by which of these methods?	5.
Technicia technicia A) Te B) Te C) Bc D) No 5. Bearing cap. A) ov B) crr C) ca D) in 6. Cranksh A) Ar B) Sta	In is correct? chnician A only chnician B only oth technicians A and B either technician A nor B occurs when a bearing shell is slightly above the parting surface of the bearing rerlap ush p lock terference fit afts should be stored by which of these methods? ny position anding or hanging	5.
Technicia technicia A) Te B) Te C) Bo D) No 5. Bearing cap. A) ov B) cr C) ca D) in 6. Cranksh A) An B) Sta C) Sta	In is correct? chnician A only chnician B only oth technicians A and B either technician A nor B occurs when a bearing shell is slightly above the parting surface of the bearing rerlap ush p lock terference fit afts should be stored by which of these methods? ny position	5.

- C) Double the amount
- D) Four times the amount

8. Which of the following is NOT true of a fully counter-weighted crankshaft? 8. \_\_\_\_\_ A) It is the smoothest running type. B) It is the most durable design. C) It is the least expensive to manufacture. D) It is the heaviest type. 9. A forged crankshaft has a \_\_\_\_\_. 9. \_\_\_\_\_ A) wide parting line B) thin parting line C) parting line in one place D) Both B and C 10. If any crankshaft is ground, it must also be \_\_\_\_\_. 10. \_\_\_\_\_ A) shot peened B) chrome plated

C) polished

D) externally balanced

Answer Key Testname: ENGINES 10 31A

- 1. D
  - Page Ref: 459
- 2. A
  - Page Ref: 448
- 3. B
  - Page Ref: 443
- 4. C
  - Page Ref: 450
- 5. B
  - Page Ref: 458
- 6. B
