Online Assignment

Chapter 13
Scientific Principles and Materials

Question 1

(Online) find two videos that explain Isaac Newton's first law of motion. (Below) list what causes an object at rest stays at rest. List a "real-life" example of why understanding Newton's first law of motion is important to a technician. List how the videos were helpful in your understanding of how applied forces affect an object. Be prepared for in-class discussion. List references.
