## **Online Assignment**

## **Chapter 21 Cooling System Operation and Diagnosis**

## **Question 1**

(Online) find two videos on how to inspect a vehicle's cooling system. (Below) list the components that need to be examined to complete a cooling system inspection. List the importance of a visual inspection and describe what a technician needs to know when inspecting a cooling system's hoses, clamps, and belts. In miles, list the frequency a cooling system inspection should be performed. Be prepared for
in-class discussion. List references.
