me	
JLTIPLE CHOICE. Choose the one alternative that best completes the statement or answers the ques	tion.
1) A lateral acceleration sensor is used to provide the suspension control module with feedback	1)
regarding force.	
A) cornering	
B) acceleration	
C) braking	
D) all of the above	
2) Which sensor provides input regarding cornering forces?	2)
A) Yaw sensor	
B) Lateral accelerometer	
C) Potentiometer	
D) None of these	
3) What type signal is produced by a potentiometer?	3)
A) Analog	
B) Digital	
C) Pulse width modulated	
D) None of these	
4) Technician A says that comparing height sensors from side to side allows the ECM to calculate	4)
acceleration force. Technician B says that only Hall-effect sensors are used as height sensors.	
Which technician is correct?	
A) Technician A only	
B) Technician B only	
C) Both technicians	
D) Neither technician	
5) Technician A says that comparing the front vehicle height sensors to the rear sensors allows the	5)
ECM to determine body roll created by cornering force. Technician B says that vehicle height	
sensors are only located on the rear. Which technician is correct?	
A) Technician A only	
B) Technician B only	
C) Both technicians	
D) Neither technician	

A) Technician A only B) Technician B only C) Both technicians

ride height sensors are adjustable. Which technician is correct?

7) A bi-state damper uses an electrical actuator instead of a solenoid.A) TrueB) False	7)
8) A steering wheel position sensor is being discussed. Technician A says that the sensor is used to determine the direction of the steering wheel. Technician B says that the sensor detects how fast the steering wheel is turned. Which technician is correct? A) Technician A only B) Technician B only C) Both technicians D) Neither technician	8)
9) How many wires are used with a potentiometer-type sensor? A) Three B) Two C) One D) Four	9)
10) Technician A says that an electronic control module used in the suspension system is the same as that used for engine control. Technician B says that most electronically controlled suspension systems use a separate electronic control module. Which technician is correct? A) Technician A only B) Technician B only C) Both technicians D) Neither technician	10)
