

Retrieve DTCs, Monitor Status & Freeze Frame

Meets ASE Task: (A8-B-4) P-1 Describe the use of OBD monitors for repair verification

Name: _____ Date: _____ Time on Task: _____

Make/Model/Year: _____ VIN: _____

Evaluation (Enter number from 4, 3, 2, 1) : _____

1. Using a scan tool, retrieve the following:

Diagnostic trouble codes (DTCs). Describe the code.

Retrieve monitor status. List the status of each:

Misfire monitor _____

Fuel system monitor _____

Comprehensive component monitor _____

Catalyst monitor _____

Heated catalyst monitor _____

EVAP system monitor _____

Secondary air injector (SAI) monitor _____

Oxygen sensor monitor _____

Oxygen sensor heater monitor _____

EGR system monitor _____

2. Record the freeze frame data for each DTC.

DTC _____ freeze frame information

DTC _____ freeze frame information
