

Name \_\_\_\_\_

**MATCHING. Choose the item in column 2 that best matches each item in column 1.**

- |                                   |                         |          |
|-----------------------------------|-------------------------|----------|
| 1) HEV accessory power            | A) In parallel          | 1) _____ |
| 2) NiMH cell voltage              | B) Organic solvent      | 2) _____ |
| 3) HEV traction motor power       | C) 3.6 volts            | 3) _____ |
| 4) Lithium-ion cell voltage       | D) In series            | 4) _____ |
| 5) HV battery cell connections    | E) High-voltage battery | 5) _____ |
| 6) NiMH electrolyte               | F) 1.2 volts            | 6) _____ |
| 7) NOT displayed on the scan tool | G) Potassium hydroxide  | 7) _____ |
| 8) Lithium-ion electrolyte        | H) Battery number       | 8) _____ |
|                                   | I) Battery temperature  |          |
|                                   | J) 12 volt battery      |          |
