

Name \_\_\_\_\_

**MATCHING. Choose the item in column 2 that best matches each item in column 1.**

- |  |                        |          |
|--|------------------------|----------|
| 1) Can be plugged in to charge batteries | A) Below 68°F          | 1) _____ |
| 2) Higher kWh battery                    | B) HEV                 | 2) _____ |
| 3) Reduces EV driving range              | C) Less weight         | 3) _____ |
| 4) Lower kWh battery                     | D) Uses 120 volts      | 4) _____ |
| 5) Level 1 charging                      | E) PHEV                | 5) _____ |
| 6) Battery comfort zone                  | F) Longer EV operation | 6) _____ |
| 7) Level 2 charging                      | G) Uses DC electricity | 7) _____ |
| 8) Level 3 charging                      | H) 68°F to 78°F        | 8) _____ |
|  | I) Hot weather         |          |
|  | J) Uses 240 volts      |          |
