

Name _____

SHORT ANSWER. Write the word or phrase that best completes each statement or answers the question.

1) Why should a spark tester be used to check for spark rather than a standard spark plug?

2) How is a magnetic sensor tested for resistance and AC voltage output?

3) What can the slope of the spark line indicate about the engine?

4) What are the sections of a secondary ignition scope pattern?

5) What harm can occur if the engine is cranked or run with an open (defective) spark plug wire?
