

Tire Rotation

Meets ASE Task: A4 – F-2 – P-1

Name: _____ Date: _____ Time on Task: _____

Make/Model/Year: _____ VIN: _____

Evaluation (Enter number from 4, 3, 2, 1) : _____

1. Check service information and determine the manufacturer's recommendations for tire rotation.

2. Remove the tires and move them to their new position. Which rotation pattern was used?

3. Install the lug nuts and torque to specifications using a torque wrench or torque absorbing adapter on an air impact wrench. What is the specified lug nut torque?

4. Check and adjust tire pressures as necessary as per the specifications for the vehicle. What is the specified inflation pressure?
