Automotive Electrical and Engine Performance
9th Edition
Ch11: CAN and Network Communications

Find the words in the grid. Words can go horizontally, vertically and diagonally in all eight directions.

```

BUS	Serial data
CAN	SOH
GMLAN	Splice pack
Multiplexing	State of health
Network	SWCAN
Node	Terminating resistors
PCI	Twisted pair
Programmable controller interface	UART based protocol
SCI	UBP
Serial communications interface
